

Richiger CG300 Truck Unloader

The solution for bagging grain brought in by hopper bottom semi trailer, dump trailers, and gravity wagons.

The CG300 combines hydraulic and mechanical drives to achieve high capacity unloading. This will load 9 or 10ft baggers, using a 100HP tractor. The transfer auger sets up for work in minutes. Its 180 degree foldaway hopper results in shorter lengths than competitors machines for better maneuverability in the yard and on the road.
